Texas, "in case, as you direct, very
many of the serious ailments that come
from impurity of the blood, and the
dyspepsia and other ailments that
arise from a disordered state of the
bowels, would be avoided. I have used these pills
about a quarter of a century, and
whereof I affirm."

Herman Brinkhoff, jewelry engraver,

A Warning From Sherman.

There is little doubt if the demand
for tariff revision and tax reduction, as
it is embodied in the pending tariff
bill, fails, the next demand will not
be based on such moderate lines, but
on the contrary will be a sweeping and
radical measure.

Senator Sherman is on the record as
warning the advocates of that high
protection that breeds monopolies and
trusts, and imposes high prices on
consumers, that they will endanger the
whole system of protection by their
piggish course.

In a speech in the Senate in 1872, when
the average tariff duty was lower than
it is now and there was no dangerous
surplus, Senator Sherman said:

"I have listened with patience day by
day to the statements of gentlemen who
are interested in our domestic produc-
tions. I am a firm believer in the gen-
eral idea of protecting their industries,
but I assure them, as I assure their
representatives here, if the present
high rates of duty are maintained in our
country, and higher by nearly 50 per cent.
than they were in 1861, are maintained
there, they will be repaid the very interest
which give rise to them, and after we
have substantially given them raw ma-
terials free of duty, we shall have the
feeling of dissatisfaction among other
interests in the country that will over-
come the feeling of satisfaction which we
now have."

Death of Emperor William, of Germany.

The Aged Monarch Goes Peaceably
to His Long Rest.

BERLIN, March 9.—The Emperor died
at 8:30 this morning.

Eye-witnesses of the scenes state
that during the last few hours of his
life he suffered no pain. Shortly after
8 o'clock all the members of the family
staying at the palace, the court dig-
nitaries, generals and ministers of
state were summoned to the chamber
in which the emperor lay dying.

The Emperor was in a half-sitting
position on a camp bedstead. All the
members of the royal family took places
at the bedside. The room was crowded.
Prince William stood nearest the Em-
peror, half kneeling over the couch.
He earnestly watched the face of the
Emperor, who was now a mere shadow.
The Emperor's remains lie covered
with a white cloth on the bedstead on
which he died in the imperial cham-
ber. The lady, who was with him, is
still called the "White Woman's
river."

The Emperor's return from one of his
expeditions along the Ohio river, Eagle
Feather brought with him another cap-
tive white girl, whom he took to his
home. The lady, who was with him, is
still called the "White Woman's

WHAT IS A NAME?

The Town of Newcomerstown and
How it Came to be Named.

Newcomerstown, Ohio, March 8.—
Strangers stopping here and persons
reading the name "Newcomerstown"
in the papers, very frequently make
inquiries as to its origin. About the
year 1738 a tribe of Catawba Indians came
to this place. They were very numerous
and their wigwags at several dif-
ferent places on the banks of the river,
the Indians called them "Newcomer"
and the name has remained to this day.

The discovery is made in the recent
of late, some experiments have been
made here by a small circle of the
ladies and gentlemen interested in
spiritualistic manifestations. Very
small success, however, was attained.
At one of the meetings Miss Byrd was
present. Friday night several friends
were present and she placed her hand
upon the table that it raised itself upon
its feet, and then it spun around upon
the innocent cause of its motion suc-
ceeded in removing her hand when it
began to revolve. Employing a like
basis for Russia, that nation before
1800 will have dropped to second place,
the United States taking the first.

Twenty years ago the United States
stood sixth in point of population
among the civilized nations of the
globe, and 20 years ago it stood first.
Twenty years hence it will stand first.
And will not political, social and in-
dustrial supremacy come with pre-
eminence in population? Perhaps not
hardly so. The United States leads
the nations in extent, value, and
variety of natural resources. It is al-
ready first in wealth, as well as first
in the value of the products of its farms
